

BEST – Better Efficiency for Industrial Sewage Treatment

Project BEST aims to improve industrial sewage treatment at municipal sewage treatment plants in the Baltic Sea Region

During the BEST project we:

- Invest in new technical solutions
- Assess the current situation in industrial waste water treatment in the Baltic Sea Region
- Provide new guidelines and collaboration practices for industrial sewage treatment
- Create capacity building methods and concepts, and produce training material

5 Countries

15 Partners

31 Associated Partners

5 Investments

-  Municipalities and cities
-  Expert organizations
-  Waste water treatment plants WWTP
-  Industries
-  Investing partners
